Anastrozole better than tamoxifen at preventing breast cancer recurrence.

Printed from https://www.cancerquest.org/newsroom/2010/10/anastrozole-better-tamoxifen-preventing-breast-cancer-recurrence on 11/13/2026

After ten years of follow-up, a study comparing anastrozole (an aromatase inhibitor) with tamoxifen (an estrogen antagonist) has shown that anastrozole is better at preventing breast cancer recurrence in post-menopausal women with estrogen receptor positive cancer.
