Using light to prevent the spread of cancer.

Printed from https://www.cancerquest.org/newsroom/2011/02/using-light-prevent-spread-cancer on 11/21/2026

A group of Finnish researchers have shown that it is possible to kill tumor cells that are moving through the lymphatic system. By using a light activated chemical, the researchers destroyed the lymphatic vessels carrying the cancer cells, reducing the spread of cancer in animal models.
