Married Colon Cancer Patients Live Longer.

Printed from https://www.cancerquest.org/newsroom/2011/06/married-colon-cancer-patients-live-longer on 11/15/2026

A study of over 127,000 colon cancer patients has determined that married patients were less likely to die from their disease. Married patients were 14% less likely to die than unmarried patients. Although the reason for the difference is not known, the authors believe that the care provided by a spouse makes a significant difference in patient outcomes.
