Watchful Waiting Works Well For Many Men With Prostate Cancer

Printed from https://www.cancerquest.org/newsroom/2011/05/watchful-waiting-works-well-many-men-prostate-cancer on 11/14/2026

Results of a study from Johns Hopkins shows that many men with low-risk prostate cancer do very well without any medical intervention other than being closely monitored. The results are important because at present, many men witht this type of cancer have surgery and/or radiation treatments that may not give better results but which **do** have significant side effects.
