Childhood Leukemia Survival Now At 90%.

Printed from https://www.cancerquest.org/newsroom/2012/03/childhood-leukemia-survival-now-90 on 11/16/2026

From 1990 to 2005, the cure rate for the most common form of childhood leukemia, acute lymphoblastic leukemia, has increased to 90%. Given that the disease was essentially incurable just fifty years ago, this is a tremendous achievement. The author of the article, Dr. Stephen Hunger, stressed that the work will not stop until the cure rate is 100%
