Strict Tobacco Regulations Reduce Lung Cancer

Printed from https://www.cancerquest.org/newsroom/2017/12/strict-tobacco-regulations-reduce-lung-cancer on 11/14/2026

Kentucky has one of the highest smoking rates in the U.S. A study by the University of Kentucky looked at 20 years worth of information and showed that people living in counties with smoke-free workplace laws have lower rates of lung cancer. Less smoke - less lung cancer. Most cancer is preventable, and lung cancer is one of the most preventable.
