CancerQuestions: Interactive Cancer Biology Quizzes

Printed from https://www.cancerquest.org/media-center/quizzes on 11/14/2026

Cancer biology and cancer treatments can be complicated! We have developed CancerQuestions, a multiple choice quizzing feature that allows users to quickly check their knowledge of the material in a section and get immediate feedback on how they did. The quizzes reinforce the information just learned and let users know what material they may need to review before moving on.

Take a random quiz on a cancer topic
